- Highest-quality Software Available!

A Few Words from the Manager

I am very pleased to send you our newest AMIGA user-supported software catalog!

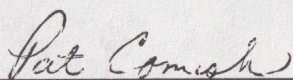

We have made every effort to bring you the BEST selection of quality user-supported software for all AMIGA computer systems.

We strive continually to bring you the best quality selection, lowest prices, fastest shipping, and best service of any AMIGA software service of this kind.

Here are some things that we do to ensure your satisfaction:

- we thoroughly test every program and certify it free from all known viruses;
- we require every program to be of excellent quality and to be easy to use;
- we take extra steps to ensure ease of use, like modifying the disks for use in a single disk drive, and including documentation where appropriate;
- we maintain customer service and technical support departments to serve you and answer your questions;
- we use only the highest quality, name-brand disks and the most accurate and precise duplication equipment on the market.

So you see, for the BEST software at the BEST prices with the BEST record of customer satisfaction, there really is no competition!

AMIGA Manager

PS: A special word of thanks to all of the authors of the software listed in our catalog, and in particular to Terry Fike, David Addison, and Hal Carter. It is because of your hard work and dedication that it is possible for us to bring this service to the public. Thanks, guys!

Games

#6 Games 1

A collection of full-color games. A great speech demo is also included on this disk. A great value—will give you many hours of enjoyment. Games are Cosmo2, Lucas Puzzle, Gomoko, Othello, Yachtc, and Trek73 (similar to Star Trek on TV).

#15 Basic Grab Bag 1

Almost 60 programs written in Basic. Includes games, utilities, and educational programs. A net cost per program of less than \$.10 each !

#23 Monopoly Game

Excellent color and graphics in this adaptation of the famous Parker Bros. game. Play against computer opponents. This program is of commercial quality—a must! Requires 512K.

#27 Amoeba Invaders

This fantastic game plays just like the original arcade classic, Space Invaders, but with enhanced color and digitized sound. In addition, you'll find more great games on this disk.

#29 Hack

A port to the Amiga of the popular game. Fantasy-adventure. There are two versions of Hack included: graphics and non-graphics. The graphics version is called Hack and the non-graphic version is called Hack 1.0.1A . By default, all the icons use the graphics version. We recommend two disk drives or a hard disk when playing Hack.

#31 Games 2

Eliza - the talking psychiatrist, Switch-strategy game, Brickout (like the famous Breakout game), UFO Invasion, more.

#38 Basic GrabBag 2

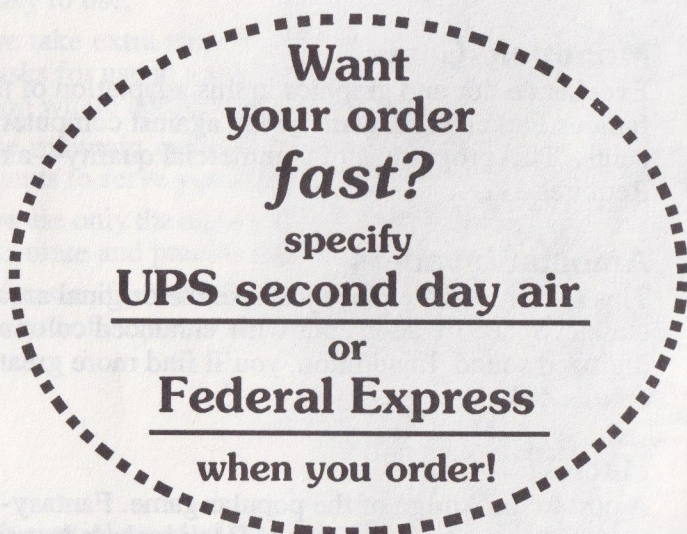

Around 25 programs of various types. Many of these are must-haves. At less than \$.20 each, you can't go wrong!

#44 Games 3

More great games including Vegas Slot Machine, Pegboard, Reversi, others. In Pegboard, the object is to remove as many pegs as possible by jumping a neighboring peg to an empty square. You may only jump one peg at a time. Reversi is a great game with sound. You don't need a joystick, just a mouse to select your moves.

#52 Basic Games

A Basic games. Discover some treasures!

#148 Boulder Dash

Very popular game with excellent graphics and has several challenging levels. This disk is full - It has Othello, Life3 and many useful utilities.

#149 APong/Tracer

APong is a little like tennis or ping pong. Suitable for one or two players. Tracer shows what you can create with the Amiga with just a little bit of time and patience. Test your artistic abilities!

#151 4-in-a-Row

A fun but challenging game you play with the computer as your opponent. There is an excellent demo called "MandFXP-D3", a utility or two, and the fun TARGET.

#153 Tunnel Vision

A fantastic 3-D game with excellent sound, speech, and graphics. This game puts you in a huge, high walled maze. Try to get out!

#154 MAXIT

Another great game from David Addison, author of Monopoly for Amiga. This is a fun strategy game that you can play against a human or computer opponent.

#155 Battleship

A version of the old favorite. Play against the computer. Has great sounds!

#156 Fly Snuffer

A great arcade-type game that everyone will appreciate. Points are scored by killing moving flies with your supply of bug spray. Very good graphics—lots of fun!

#158 Sinking Island II (2 Disks) by Terry Fike**A&B***New*

The adventure begins. Text/graphics adventure game with 4 map scenes, underground chambers and much much more. Has pause and save game features. TWO DRIVES RECOMMENDED

#161 Sorry*New*

Amiga Sorry, like the board game created in 1934. (Great Graphics!) Other games included - Bully, and Amazing.

#162 Video Poker*New*

A popular game in casinos throughout the world! A variation of draw poker, in which the player seeks to win jackpots through successful strategy. Includes two more card games; Harts, and Stud Poker.

Graphics

#63 Graphics 1

Half-Bright Mode Demo, HAM show (allows all 4096 colors on the screen at once), a Yacht game, more.

#65 Deluxe Draw

Drawing program. Other programs include DiskSalv, a spell checker, DiskZap, AmigaArc, others.

#91 Freedraw

A drawing program, SpeechToy - demonstration of the Amiga's Speech abilities, about a dozen more. Most programs on this disk include source code.

#119 mCAD

A full-featured computer-aided design program. mCad is an object oriented drawing program. It has a small set of graphics primitives (like "line", "box", and "text") and a small set of editing functions (like "move", "size", and "rotate") while drawing and editing, the user can call on other functions to modify the display to zoom in, slide around, to superimpose a grid, etc. The one powerful feature of mCad is that primitives can be grouped and ungrouped. The editing functions operate on groups of (one or more) primitives.

#136 Graphics 2

Border Set-useful for desktop publishing and video, making cards, coupons or menus, and your own artwork. Xicon - allows you to run AmigaDOS commands or programs from Icon.

#184 Paint & Ultra Paint

New

A great drawing program. Lets you be as creative as you can. Lots of colors, patterns, and free-draw capabilities. There is no limit to what you can create!
